About Mysteries Within

Mysteries Within is an entertainment show based on mentalism – a performing art in which the mentalist displays what appear to be highly developed mental faculties. He may read thoughts, reveal information about objects and events through extra-sensory perception, predict future events and subliminally influence people's choices.

Mysteries Within is intriguing, fun and highly interactive. Every demonstration involves one or more audience members who share the spotlight with the performer and get to experience something extraordinary first-hand.

If you are looking for something new and exciting for your next corporate event – a form of entertainment the participants have never experienced before, get in touch with Saadi today.
